Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 November 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 2 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsuki et al. (US 2002/0121709 A1).

In re claims 1, 20 and 27, Matsuki discloses a semiconductor device, comprising:

- an interconnect layer (3) provided on a semiconductor substrate;
- a protective film (18a) provided on said interconnect layer;
- an electrode pad (18b) provided on said protective film; and
- an anti-oxidizing layer (18) containing a same element (Cu) as an element in said interconnect layer that is chemically bonded or alloyed with a different element (Ni) which is different from said element contained in said interconnect layer, said anti-oxidizing layer being disposed between said interconnect layer and said protective film, wherein said electrode pad is in electrical contact with said interconnect layer and is disposed on said protective film in a position to permit contact by a probe, and wherein said different element of said anti-oxidizing layer is a metal having a lower oxidation-reduction potential than that of said element contained in said interconnect layer, said element being a metal, and said anti-oxidizing layer being disposed between said

interconnect layer and said protective film in a position that inhibits corrosion of said interconnect layer when an interface between said electrode pad and said interconnect layer is damaged by said probe.

In re claim 2, Matsuki discloses the device of claim 1, wherein said interconnect layer is a copper-containing metal.

Allowable Subject Matter

Claims 4, 5 and 32 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 6, 7, 25, 26, 28-31 and 33 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 1 and 27 have been considered but are moot in view of the amendments to the claims and the new ground(s) of rejection herein.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
